

Greetings,

Thank you all for your attention and attendance with our Clerkship Planning meeting yesterday.

I am happy to report, that the majority of M2 students now have access to Persinda*. This means that you can access Persinda to complete your E2 form and submit your supplemental medical documents, as long as you are compliant with the health requirements specified below:

- 2024-2025 Flu vaccination**
- 2024-2025 Covid vaccination**
- TB test
- Mask-Fit

For a reminder on how to complete the E2 form and submit your medical documents to LA General, please refer to the following [video](#).

*** Please note: LA General has identified a handful of students who will require additional steps to complete their Health Clearance. We will send individual emails to those students with instructions.**

**As a reminder, students are required to obtain 2024-2025 flu/COVID vaccinations (USC student health will not accept 2023-2024 vaccinations).

Students are required to complete these onboarding steps with LA General no later than by Friday October 25, 2024 at 5:00 pm.

USC student health will assist students with their immunization/mask-fit needs on an appointment and walk-in basis to accommodate schedules. For more info, please call 213-740-9355 or email: studenthealth@usc.edu

Best,

Anthony Tritto M.Ed.
